

BnB Finder website to be discontinued

Dear Valued Customer

The introduction of the new Protection of Personal Information Act (PoPIA) has prompted Bryte, your BnB Sure policy provider, to consider the continuation of the BnB Finder website. We have, after much deliberation, taken the decision to discontinue this service with effect from Friday, 1 June 2018.

The good news is that we have sourced an alternative – The Stay Network – or you may continue using the other booking engines you already have in place. Below, for your convenience, is more information.

The Stay Network has long established expertise in its niche of exposing the very best accommodation in South Africa to local and international visitors.

We've long been a trusted source for guests to find expertly-run Guest Houses, BnBs, Self-Catering accommodation, Backpackers, Wedding or Conference venues, Honeymoon Retreats and Game Lodges.

It's your professional hosting and local knowledge alongside our proven online exposure that keeps guests coming back to The Stay Network and ultimately to your establishment. List with The Stay Network in our area-specific, category-specific and keyword searchable directory.

Listing is free and commission of 15% (ex-VAT) is only levied once the booking is confirmed and payment has been received.
