

A feature and benefit of the **MUA Executive Policy** that takes your pets into consideration.

# INSURANCE THAT CONSIDERS YOUR PETS.

ACCIDENTS COULD HAPPEN TO ANYONE, INCLUDING YOUR PETS.

"Our pets are just as important as our family heirlooms and antiques."

For many, their pets are their family or children, just depending on their point of view. In the same way that we cater for the medical care of ourselves and our family, insurers have seen the need to provide cover for certain veterinary expenses of pets. As with everything else, veterinary expenses are increasing to a point where they have become an item on many a household's budget. In recognising this need, **MUA provides an automatic extension of cover** (under the house contents section of the Executive Policy) for veterinary expenses to the value of R10 000 per year.

This cover provides for veterinary expenses incurred for sudden and unforeseen incidents if your pet is:

- accidentally injured due to a motor vehicle accident;
- suffers a burn or electrocution;
- suffers injury from another animal (other than tick/flea bites); or
- swallows a foreign object that requires surgery.

It is important to note that the person attending to your pet is a registered and qualified Veterinarian to validate a claim against this policy. Please note that we cannot cater for any and all illnesses, but purely for **accidental and sudden incidents** for which your **furry pet needs surgery and medical attention.**
